

The IRC, WCC, & Archer Library present

AI STUDENT WORKSHOPS

Practical & Responsible Use of AI

EXPLORING AI

Explore GenAI with ChatGPT, Perplexity, & Gemini. This session will include an AI intro, recap of common terms, plus review AU policy on the use of GenAI.

Attendees will engage with each platform and evaluate a variety of prompt responses for a series of activities.

Session #1

Registration Required
Space is limited.

February 12 @ 4 p.m.

PROJECTS & AI

Explore *Dead Internet Theory* using ChatGPT, Perplexity, and Gemini. This session will include developing prompts for searching and engaging with results.

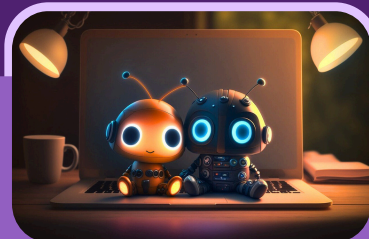

Attendees will create and revise prompts and discuss responses from each of the three AI platforms.

Session #2

Registration Required
Space is limited.

March 12 @ 4 p.m.

PROMPTS & AI

Explore prompts and prompt engineering for research purposes. This session will include an overview of the *CLEAR Framework* for crafting effective prompts.

Attendees will research a topic of their choice and evaluate responses. A professor using AI will share their insights.

Session #3

Registration Required
Space is limited.

April 9 @ 4 p.m.

WORKSHOP PRESENTERS

Diane Schrecker, M.Ed., MLIS
Curriculum & Instruction Librarian

Dr. Andrew Wrobel
WCC Associate Director

WORKSHOP LOCATION

Archer Library, Main Floor
Active Learning Lab

**\$25 Gift
Card**

WORKSHOP DETAILS

Attendees can register to win a \$25 Amazon Gift card!

Bring your laptop or mobile device to each session.

Not sure about AI?
This workshop series is great for GenAI novices!
